Personal Statement

I'm 31 years old from Israel, currently based in Tel Aviv.

I'm an autodidact who likes to explore, learn, and discover designs and technology

Professional Experience

Freelancer · UI/UX Designer

2016 – Present

Designed and implemented concepts for user experiences and user interactions. created mockups and 3D objects with Cinema-4D.

Built Websites, Apps, Animations, Banners and Landing pages.

In addition, I have written HTML code for my difrent designes and embeded animation codes for pc and mobile browsers.

Freelancer · Graphic Designer

2014 – 2016

Produced marketing and promotional creative designs for a wide variety of clients. These designs include branding, banners, posters, business cards, Flyers, Logos and other print media.

Also, as a photographer I did artistic shootings for special events, weddings and portraits, as well as commercial product photography.

Project

Smart-gan · Product designer, UX/UI

2016

Worked closely with the engineering team on designing features for an app, In this project I was in charge of User Flows, Personas Research, Branding and Design.
